

Calling all programming directors! Want to add some exciting new offerings to your programming calendar? Engage a wider audience with **GARDENING CLASSES** and reach untapped members of your community! Gardeners are perennial learners in search of science-based, up-to-date tips and techniques to grow bigger veggies, better flowers, and healthier lawns in an eco-friendly way.

Garden Classes Fill Seats!

You provide the meeting space. I'll bring a FUN, factual, and fast-paced presentation!

SUCCESSFUL CONTAINER GARDENING: Learn the secrets to growing beautiful, vibrant edible and ornamental plants in a variety of containers.

GARDENING FOR BACKYARD WILDLIFE: Let's make our backyards a PARADISE for desirable songbirds, pollinators, and other wildlife by using native plants easily found at your local garden center!

LANDSCAPING 101: Are you ready to renovate your yard, or simply create a new area for veggies or flowers? Everyone needs a site plan AND an action plan to tackle a big job.

GARDEN CHEMISTRY 101: Pesticides, fertilizers, and herbicides — what are they, and what effective, low-toxic alternatives exist? A basic introduction for the home gardener.

*COMPOST and MULCH 101 • GROWING VEGGIES • POLLINATORS
NATIVE PLANTS • MULTI-SESSION CLASSES • SEASONAL TOPICS*

Call NOW — before your next programming calendar deadline — to add gardening classes to your upcoming schedule! *Certain dates on my calendar in early spring/summer fill very quickly.*
